Application:

IN THE CLAIMS

Please add new claims 39-60 as follows:

- A1
SUB C
39. A method for completing a partial data entry for an active cell of a spreadsheet having a plurality of cells defining a grid of rows and columns, the method comprising:
invoking an edit mode for the active cell;
5 identifying a list of completed data items from a search region within the spreadsheet, said search region including one of (1) cells sharing the same column as the active cell, (2) cells sharing the same row as the active cell, (3) cells within the same
